Suspender Anatomy.

Suppose that instead of being provided with a frictionless, ball and socket joint, your arms had to stretch a muscle or ligament every time you moved them. You would be tired out long before bed time.

Now consider—if you wear the ordinary suspenders you must "stretch rubber" every time you move—it's tiresome.

SHIRLEY PRESIDENT SUSPENDERS

are made with a sliding cord that moves through frictionless tubes, just as your body moves, and as freely; it imitates nature's provision for freedom of motion—it gives comfort to your body and durability to the sus- penders. Doesn't this appeal to you as being a sensible reason for wearing the Shirley President Suspenders?
